She is residing in a rented house and paying Rs.3000 per month as a rent. She is having a backyard where she grows kitchen garden. She is successful in installing the honey bee boxes and is reaping at least 2 litres of honey a month. She is having a tie up with Panchavarnam honey bees where she is supplying her harvested honey and gets Rs. 400 per liter and thus it's a start of her support to the family.

She is a M.Ed Computer Science. Though she is a post graduate she never thought she would work in the home and give additional income to the family. But now she is able to provide Rs.800- 1000 on her own. She would like to expand and install additional 2 more boxes. So that she can earn more. She is happy that she is contributing to her family.
