

## **“Revival and Renovation of Traditional Water Bodies” Simha Teertham**

**By  
Vivekananda Kendra – Nardep**

Rain God Varuna was kind enough in this month by giving copious rain. In the process, not only the inner pond but the outer pond also filled partially with good quality water. Villagers are happy to see the new water body which will help in recharging the nearby wells and will help in changing the entire eco system by way of flora and fauna.

*Water – Nay nectar in the newly renovated Traditional water body*

*Beautiful view of Simha Teertham with piers holding the wall*

*Another view with steps and entry gate*

*Construction of entry gate is in the final stages. Waiting for the door*
