### Flower Plants Distribution on Parvathavarthini School:

A Flower Plant Distribution Programme was organized at Parvathavarthini School to promote environmental awareness and greenery. Flower plants were distributed to students and teachers with the objective of encouraging them to nurture plants and contribute to a cleaner and greener environment. The initiative motivated the young learners to care for nature and reinforced the importance of planting trees and flowers.

### Tree plantation at Raja Gopal Nagar

A Tree Plantation Inaugural Programme was organized at Raja Gopal Nagar Kulam in collaboration with the Forest Department. The event was inaugurated with the planting of saplings to emphasize the importance of environmental conservation and greenery. Forest Department officials and community members actively participated, creating awareness on afforestation and encouraging public involvement in protecting nature.
